

### Remotely View Your Home

Alarm Depot can integrate your surveillance cameras with your security system for the ultimate peace of mind. Watch live, streaming video of multiple cameras at one time, and receive video clips and images of events occurring around the interior or exterior of your home on your laptop, Blackberry, iPhone, iPad, Android or any compatible mobile device! Our wired or wireless cameras can conveniently be placed anywhere around your home. See when your kids get home from school, or check on your teenager's party while dining with your wife at a local restaurant. Or maybe you just want to keep an eye on your pets from work, no problem; this is all possible with Alarm Depot.

### Why Choose Video Surveillance?

In a world of uncertainty, protecting what's most valuable to you has now become paramount. Alarm Depot understands this and is here to help. Keeping your home safe is critical for peace of mind. Protecting invaluable assets like your family, property, and belongings have become a way of life. Loss Prevention is now an everyday way of how we think and act at home or in business. Our video surveillance system enables you to actively monitor your home or business right from your smartphone or from your computer at work.

We are a market leader in advanced security products & solutions for residential and commercial applications. Our company's reputation is built on dedication to uncompromising product quality with best-in-class installation & technical expertise, quality solutions and reliable after sales service and support.

We pride ourselves on delivering outstanding customer service because you are the most valuable to our business and vital to the success of Alarm Depot.
